Charlie Edwards

Web Developer

👤 Objective

Professional full stack software developer with 2+ years of experience in developing, testing, and maintaining React/.Net web applications. Seeking an opportunity with a reputable company to utilize my technical knowledge and expertise in designing, coding, and implementing user-friendly software systems. My goal is to contribute towards the success of the organization by providing innovative solutions that help optimize business processes.

💼 Employment History & Projects

Full-Stack Web Developer at Actuator Digital
2021 — Present

- Proactively collaborated with the design team to ensure that the React front-end implementation adhered faithfully to the original designs.
- Implemented performance improvements on web applications, resulting in a tenfold increase in load times.
- Developed and maintained extensible REST APIs using ASP.NET and Node, utilizing test-driven development (TDD)
- Built CI/CD pipelines to automate deployments, eliminating most build/deployment issues and significantly speeding up the time to production.
- Added, improved, and monitored cloud infrastructure on AWS for half a dozen clients.
- Increase office productivity by improving internal software tooling.

Sales Executive at Smartpay Payments
November 2018 — October 2020

- Consistently achieved and surpassed sales targets in business to business sales through strong interpersonal communication, quick decision-making, and astute problem-solving skills.
- Enthusiastic and passionate about providing excellent customer service, resolving customer issues quickly, and building customer loyalty
- Skilled in training staff on basic sales processes and product knowledge.
- Adept in utilizing CRM and sales management platforms to track sales orders and monitor progress

🎓 Education

Diploma of Information Technology, Macquarie University
October 2020 — July 2021

High School Certificate, Northholm Grammar School
February 2009 — October 2015
